

Ahmed Sinan Hayder

Software Engineer

Mosul, Iraq | +964 771 344 1804 | xonindev@gmail.com
github.com/xonin-hush | linkedin.com/in/xonin

PROFESSIONAL SUMMARY

Software engineer specializing in frontend development with JavaScript, TypeScript, Vue.js, and React. Experience spans an ERP platform, a hospital management system, a live video analytics application, an admin dashboard, and a browser-based 3D heritage explorer, plus a comprehensive frontend test suite with CI/CD automation. Computer Science graduate in Software Engineering from the University of Mosul.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, PHP, C, C++
Frameworks and Libraries: React, Vue.js, Next.js, Astro, Babylon.js, Colyseus, Filament (Laravel), Strapi, shadcn/ui, MUI
Databases: PostgreSQL, MySQL
Tools and Platforms: Vite, Docker, Git, CI/CD, Postman, Milestone XProtect
Other: WebSockets, WebGL, TWAIN/WIA, unit testing, integration testing, end-to-end testing

PROFESSIONAL EXPERIENCE

- Frontend Developer** *Aswar Group | June 2025 – July 2026*
 - Built and architected Vue.js frontends for an ERP platform and a full-featured hospital management system.
 - Built a live video analytics Vue.js application from scratch with a mock backend, plus interfaces integrated with Milestone XProtect surveillance systems.
 - Developed Scanner Bridge, a multi-layered document capture solution using TWAIN/WIA protocols, WebSockets, and a unified digital intake workflow.
- Frontend Developer** *QAF Lab | June 2025 – September 2025*
 - Wrote and maintained a comprehensive frontend test suite covering unit, integration, and end-to-end tests.
 - Implemented CI/CD automation, mocking, and performance checks, applying clean and refactored test practices.
- Frontend Developer** *Al-Noor University Center for the Preservation of Cultural Heritage | January 2025 – June 2025*
 - Built a responsive Astro landing page and a Filament (Laravel) admin dashboard with role-based authentication and user management for Alnoor Center / Discover Mosul.
 - Enabled staff to add heritage sites and manage the content served by the mobile app.
 - Integrated Tidio AI-powered live chat into the application.

PROJECTS AND INTERNATIONAL COLLABORATION

- Heritage Iraq — 3D Interactive Heritage Explorer** *2026*
 - Designed and built a browser-based 3D interactive explorer of Iraqi heritage sites (heritage.alqaba.com) using Babylon.js, TypeScript, and Colyseus.
 - Implemented a six-era timeline of 14 landmark sites, first-person walkable worlds, real-time multiplayer, and extensive WebGL performance optimization.
- Project Week — Brandenburg University of Applied Sciences, Germany** *2025*
 - Participated in an international project week on 3D documentation, gaining hands-on FARO Focus laser scanning experience through fieldwork at the Brandenburg Museum to produce precise digital heritage models.
- Digital Heritage Documentation Project — Iraq and Germany** *2025*
 - Contributed to an international multi-university research project digitally documenting the UNESCO-listed Al-Chibayish Marshes, involving field photogrammetry data collection, 3D model integration, and website optimization.
- Digitalisation of Cultural Heritage Workshop — University of Potsdam, Germany** *GI-Festival 2025*
 - Participated in an international cultural heritage digitalization workshop, contributing to VR and AR gallery projects with the Universities of Mosul and Al-Noor, showcasing immersive Iraqi heritage experiences.

EDUCATION

- Computer Science — Software Engineering** *University of Mosul, Mosul, Iraq | Graduate*
 - Coursework in coding, data structures and algorithms, computer architecture, networking, software engineering, and intelligent systems.
 - Studied the full software development lifecycle, covering requirements engineering, software design, development, testing, deployment, and maintenance.

HONORS AND AWARDS

- HurryApp Hackathon (2025) — Finalist, Baghdad
- University of Mosul CTF (2025) — Finalist, Mosul
- IRPCPC (2023) — 1st Place, Baghdad

LANGUAGES

- Arabic: Native speaker
- English: Professional working proficiency
